

PROJECT RÚBRIC

Category					
		Exemplary (4)	Proficient (3)	Approaching (2)	Unsatisfactory (1)
1	Research	Several reputable background sources were used and cited correctly. Material is translated into student's own words. All required elements are present and additional elements that add to the report (e.g., thoughtful comments, graphics) have been added.	A few reputable background sources are used and cited correctly. Material is translated into student's own words. All required elements are present.	A few background sources are used and cited correctly, but some are not reputable sources. Material is translated into student's own words. One required element is missing, but additional elements that add to the report (e.g., thoughtful comments, graphics) have been added.	Material is directly copied rather than put into student's own words and/or background sources are cited incorrectly. Several required elements are missing.
2	Project proposal	It presents compelling benefits for care of the environment. Team has a clear picture of what they are trying to achieve. Each member can describe what he or she are trying to do and generally how his/her work will contribute to the final product.	It presents benefits to the environment. Team has a fairly clear picture of what they are trying to achieve. Each member can describe what they are trying to do overall but has trouble describing how his/her work will	Few benefits are presented for the environment. Team has brainstormed their concept, but no clear focus has emerged for the team. Team members may describe the goals/final product differently.	It shows no benefits to the environment. Team has spent little effort on brainstorming and refining a concept. Team members are unclear on the goals and how their contributions will help them reach the goal.
3	Floor planner	It includes ecological resources to comply with the proposal. At least 2 implementations of 3 different ecological devices.	All ecological resources in accordance with the proposal are not included. Have some implementations but not enough.	Ecological resources raised in the proposal are not displayed. Only includes	The design of the plane is not in accordance with the proposal. No show implantation of ecological devices.
4	Sketchup y video	The demonstration offered new Information or approach about the application . The demonstration also showed strong effort was made in breaking new ground and building excitement about the application.	The demonstration offered some new information or approach about the application. The demonstration also showed initial effort was made in building excitement about the application.	The demonstration was not complete and offered no new information or approach about the application. The demonstration also showed that little effort was made in building excitement about the application.	The demonstration was not complete and offered no new information or approach about the application. The demonstration also showed effortless was made in building excitement about the application.
Top score: 16
