

W-Factor stars in class! Let your students shine!

Engage your students into song writing with passion and connect their interest to be famous with their ability to write. With GarageBand students compose music and lyrics about solutions to common social problems such as taking care of the planet, health care and how to be happy.

Purpose and objectives

Having students writing more than 121 characters is a challenge for all those professors who teach how to develop essays.

Help your students to become passionate about writing, and also motivate them to transcend and influence positively others through writing. We want to join efforts and take a good care of the environment, eradicate bullying and promote a well-conditioned lifestyle through healthy eating habits and exercise.
